

Wildfire Update

August 18, 2025 3:00pm PDT

FIRE NUMBER:

N51141—Macleod Creek

ESTIMATED SIZE:

102.6 hectares (Aug 18, 2025)

FIRE STATUS:

Being Held

Turner FSR is open

The Turner FSR is now open to all vehicle, pedestrian and bicycle traffic. We'd like to thank members of the public for their patience and understanding during this temporary closure.

Summary

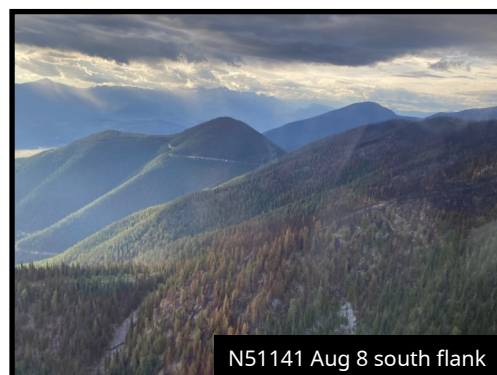

On August 8, 2025, the status of this fire was changed to Being Held. This means the wildfire is projected, based on fuel and weather conditions and resource availability, to remain within the current perimeter, control line or boundary. Nakusp and the surrounding area can still expect to see smoke from within the fire's perimeter over the coming weeks as weather and conditions change. Smoke appearing from within the fire perimeter is common, but smoke that rises from green, unburned fuel or from outside a fire's perimeter should be reported.

There is currently **no threat to structures or infrastructure**, including Highway 6 and Highway 23.

Response

- Firefighter and heavy equipment control lines have been established
- Contingency lines have been established
- This fire will continue to be closely monitored

This will be the final community bulletin for wildfire N51141. Find the latest response information on the BCWS map and dashboard.
