

DECEMBER 3, 2025

SNOW IS HERE; THANK YOU FOR DOING YOUR PART!

A BIG THANK-YOU TO EVERYONE WHO HAS ALREADY STARTED CLEARING SNOW FROM THE SIDEWALKS.

When you keep the sidewalk in front of your home or business clear, you're helping neighbours stay safe and helping us keep taxes low by reducing the need for additional staff hours for sidewalk clearing. We really appreciate it!

A QUICK REMINDER:

It's the responsibility of every property owner or occupant to clear the sidewalk next to their property.

While the Village may occasionally clear sidewalks to support the community, this is only a courtesy and not something to rely on. If sidewalks aren't cleared, enforcement may follow.

WHAT YOU CAN USE TO MELT ICE:

Sand, gravel, and ice-melt products containing Calcium Magnesium Acetate (CMA) or Magnesium Chloride - these protect concrete and are safer for pets and the environment.

A little goes a long way! Using more ice melt than recommended won't make it work better and may harm plants, water bodies, pets, or infrastructure. Please follow the manufacturer's directions for safe and cost-effective use.

WHAT YOU CANNOT USE:

Rock salt is not allowed - using it is a bylaw offence.

Thank you for helping to keep our community safe, accessible, and welcoming this winter! ❄️
