

HOT SPRINGS

Village of Nakusp

Amendment 1: 2026RFQ03

Issued: August 11, 2026

Submission deadline date extension

The new submission deadline is 3pm August 21, 2026.

Q&A

How many machines are required?

The minimum number of machines is one washing and one drying machine. One of each is sufficient if they are able to process 200lbs of laundry in eight hours. Proponents may propose multiple washers or dryers if they are individually unable to process 200lbs of laundry in eight hours but together they can, and they meet the minimum quality requirement.

Is there three phase power?

No, there is only single-phase power available.

Is there gas available?

No, only electricity.
